ENHANCING COMMUNITY HEALTH CENTER PCORI ENGAGEMENT (EnCoRE) www.CDNetwork.org/EnCoRE

Clinical Directors Network, Inc. (CDN) in partnership with National Association of Community Health Centers, Association of Asian Pacific Community Health Organizations, Institute for Community Health, South Carolina Primary Health Care Association, and Access Community Health Network, aims to adapt, enhance, disseminate, and implement an existing curriculum designed to educate Health Center patients, clinicians, and other staff in Patient Centered Outcomes Research (PCOR) through use of webinars, homework assignments, and skill-building resources. Metrics have been established to evaluate the extent to which the goal of increasing the number of "research engaged" Health Centers has been achieved. This goal is being achieved by strengthening infrastructure in comparative effectiveness patient centered outcomes research, delivering online training content, disseminating training resources, and by providing a supportive learning community to enable Health Center Teams to develop and submit high quality competitive research for funding. For more information, email or call the eLearning Department : eLearning@CDNetwork.org, (212) 382-0699 ext. 243.

This work was partially supported through a Patient-Centered Outcomes Research Institute (PCORI) Program Award (NCHR 1000-30-10-10 EA-0001). With support from: N² PBRN – Building a Network of Safety Net PBRNs Funded by: Agency for Healthcare Research and Quality (AHRQ) Grant No. 1 P30 HS 021667.

To facilitate FQHC involvement in research, including CBPR, www.CDNetwork.org/NACHC provides training resources to help FQHCs build the skills needed to design, implement, analyze, publish and disseminate research with their community stakeholders.

eCLINICIAN PROJECT

Sponsored by the New York City Department of Health and Mental Hygiene (NYCDOHMH) and Clinical Directors Network, Inc. (CDN).

- Provides free, public health-friendly customized handheld computers (PDAs) with clinical decision-support software to primary care clinicians working in NYC Community Health Centers.
- Download the FREE clinical decision-support tools to your Smartphone, Tablet, Notebook, PDA or Computer now and learn more about how each tool can enhance clinical care through CDN's online webcasts!
