

UNDERSTANDING THE IMPACT AND CONSEQUENCES OF HEALTH CENTER (DE)FUNDING

- Welcome and Introduction to the RCHN Community Health Foundation Webcast Series by:
- Feygele Jacobs, MPH, MS EVP/Chief Operating Officer
 RCHN Community Health Foundation

Featured Speaker:

Peter Shin Ph.D., M.P.H.
Associate Professor
Director
Geiger Gibson Program (GGP) in Community
Health Policy
Research Director, Geiger/Gibson RCHN CHF
Research Collaborative
Department of Health Policy

George Washington University School of Public Health and Health Services

> THE GEORGE WASHINGTON UNIVERSITY SCHOOL OF PUBLIC HEALTH AND HEALTH SERVICES

Featured Speaker:

• Katherine Hayes, J.D.,

Associate Research Professor

Department of Health Policy

George Washington School of Public Health and Health Services

Health disparities

- Children's health and education
- High-risk pregnant women
- Economic security
- Health care savings

Budget proposals

• H.R. 1

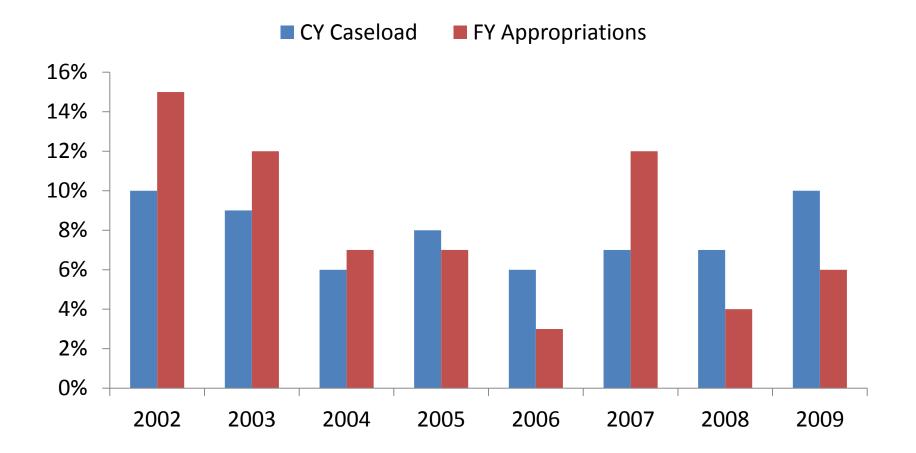

- > \$1.3 billion
- Loss of available ARRA funding
- NACHC projected loss of capacity to serve over 3 million patients now and 11 million overall
- Threat of budget cuts still loom

	2001	2003	2005	2007	2009*
Patients (CY, millions)	10.3	12.4	14.1	16.1	18.8
Federal funding (FY, \$ billions)	1.17	1.50	1.73	1.99	2.19

*Caseload reflects residual effects of the Recovery Act grants; Federal funding refers to appropriations and does not include ARRA grants

Source: Number of patients from UDS data, HRSA

2. Annual Change in Caseload (CY) and Federal Funding (FY)

(a) Estimates based on 2009-2010 CPS' proportion of low income uninsured adults who work and the UDS' reported number of uninsured adult (nonelderly) health center patients. (b) The proportion of low-income, uninsured working adults in the state served by health centers is calculated as the number of low-income uninsured patients divided by the number of low-income uninsured workers in the state.

5A. Proportion of Low-income, Uninsured Workers Served by Health Centers, 2009-10

NOTE: National average based on 2.7 million low-income uninsured adult patients and 11.1 million low-income uninsured workers SOURCE: 2009-2010 Current Population Survey, U.S. Census and 2009 UDS, HRSA

- Health disparities
- Children's health and education
- High-risk pregnant women
- Economic security
 - > At least two-fold return on investment
 - > 2.7 million low-income, uninsured workers
- Health care savings
 - Medical primary/preventive care home
 - Loss or gain of \$15 billion savings

- What's Ahead for Community Health Centers

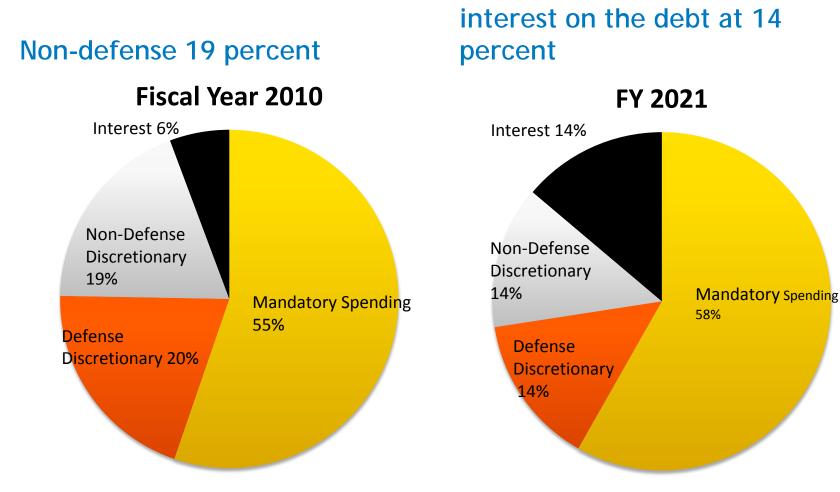

Federal Deficit

- "If current laws remain unchanged, deficits will total \$7 trillion over the next 10 years."
- "If certain policies that are scheduled to expire under current law are extended instead, deficits may be much larger."
- "If federal debt continues to expand faster than the economy—as it has since 2007— the growth of people's income will slow, the share of federal spending devoted to paying interest on the debt will rise more quickly, and the risk of a fiscal crisis will increase."

Congressional Budget Office, March 2011

Discretionary Spending Shrinking as a Percentage of Federal Spending

Source: Congressional Budget Office

Non-defense about the same as

What is "discretionary" anyway?

Discretionary Non-Defense

- Law enforcement
- Homeland security
- Transportation
- National parks
- Disaster relief
- Education
- Foreign aid
- Non-mandatory health programs (NIH, CDC, HRSA)

Status of FY 2011 Funding

- Fiscal year 2011 (October 1, 2010 September 30, 2011)
 - Continuing Resolutions
 - 1st 4th Continuing Resolutions Short term through 3/4/11
 - Further Continuing Resolution through 3/18/11 (cut \$2 billion)
 - Full year through 9/30/11 (cut \$61 billion) failed (GOP)
 - Full year through 9/30/11 (cut \$10 billion) failed (Dem)
 - Additional Continuing Resolution through 4/8/11 (cuts \$6 billion)

Budget Impasse

Republican Controlled House

- 87 freshmen pledge to cut \$100 billion
- House Leadership cut \$61 billion
- > 3 week extension cut \$6 billion (54 Republicans voted against)
- "Riders" Conservative Republicans insisting on language
 - Eliminate funding for Title X
 - Prohibit any funds from being used to implement health reform
 - Prohibit implementation of environmental regulations
 - Prohibit implementation of financial regulation reform
 - Hyde Amendment with no exceptions
 - Other

Budget Impasse

Democratic controlled Senate

- Senate rejected House funding resolution (\$61 billion)
- Senate rejected Senate Democratic Leadership funding resolution (\$10 billion) - Conservative Democrats voted against
- "Riders" won't pass in Senate
 - Eliminate funding for Title X
 - Prohibit any funds from being used to implement health reform
 - Prohibit implementation of environmental regulations
 - Prohibit implementation of financial regulation reform
 - Hyde Amendment with no exceptions
 - Other

Worst-case Scenario

- "Non-essential" services stop
- Each agency defines "essential" services
- Recent shutdowns
 - 5 days November 1995; 21 days January 1996
- Services curtailed in 1996
 - Federal workers furloughed
 - National parks close
 - Environmental cleanup stopped
 - Health care
 - Medicare claims not paid
 - States did not receive Medicaid federal matching payments
 - Veterans health programs closed
 - CDC, NIH, and other activities scaled back

What's Ahead?

Bad News

- > FY 2011 continuing resolution expires April 8th
- > No consensus in sight
- Debt limit vote in May
- > FY 2012 begins on October 1, 2011

Good News

- CHCs enjoy broad bipartisan support
- Good data to back up your roles as safety-net providers
- Excellent federal advocacy network in place
